Features and benefits

Self service catalogue
Order marketing collateral easily and in minutes.

Personalise your products
All items in the catalogue can be personalised to support local marketing initiatives whilst maintaining brand guidelines.

Reduce your costs
Build a catalogue using a mix of stocked and print on demand products.

Brand control
Apply various levels of approvals within the catalogue to make sure you know where your brand is being applied.

Cost control and integration
We can set similar approval loops in the system to monitor cost or integrate direct into your procurement platforms to ensure consistent ways of working and a fully automated order to invoice process.
